Tussey Mountain Mulch

Check Valve (2")

\$74.99 \$71.24
You Save: 5.00%

Aquascape Check Valves prevent water from the biofalls from back washing when the pump is shut off for cleaning or an occasional power outage. This could prevent the loss of beneficial bacteria that has seeded itself into your Biofalls filter media.

2" Check valve should be used for pumps up to 5000 GPH or the Aquascape 7500 Pump

Additionally the Patented 90 Degree design and easy to remove unions make servicing and removing your pump a breeze.

Note: 2" Check Valve can be used with the Aquasurge Pumps (with the 'Aquasurge Adapter Kit) .

Styles

Classic Skimmers - Use with Aquascape Classic Standard and Large Skimmer

Signature Series - 2 inch pipe only. Use with the Signature Series Skimmers and the MicroPondless. Use with 1500/3000/4500/7500 Pumps. Also can be used with the Tsurumi 2PU, 3PN, and 4 PN.

Large Pondless - Use with large Pondless Waterfalls

Grande Skimmer - Check Valve for Horizontal Pumps in the Grande Skimmer only
